

ORCHESTRATORBOT

ORCHESTRATORBOT
TEAM. COLLABORATION.
AUTOMATION.

NOCODE APP BUILDER WITH ORCHESTRATIONS

ABOUT US

- Hight.io was founded in 2020 in current pandemic times. Building corporate resilience, countering disruptive change and finding ways to prosper in dire times comes naturally to us
- We Build Deep Collaboration and AI-powered enterprise applications to boost productivity, agility and innovation
- Discover how digital transformation can make your team become post-pandemic ready, more innovative and faster moving with us

ORCHESTRATOR BOT

- Work smarter together and get more done with your orchestrations.
- Simplify your workflows; easily share data and unlock the power of JD Edwards from MS Teams, Outlook, Slack and Whatsapp.
- Discover how we use UDO's to power up any workflow or execute any orchestration directly from your team collaboration tools.
- Set up Botflows to request data from JD Edwards or to modify and create new data.
- Create unlimited Botflows directly from your available and published orchestrations; configure the app with dynamic attributes from the OrchestratorBot NoCode studio.

HIGHT.IO

Lets build the Future of Work together

Shift your focus to value-added activities and drive business value with embedded AI and NextGen technology to solve complex business challenges while reducing cost.

UDO VALORIZATION

Discover how we use UDOs such as the Form Extension Framework, Orchestrations and Notifications to dynamically execute any process directly from within the team collaboration tools you already use inside your organization

LIMITLESS POSSIBILITIES

Automate any use case using your own orchestration and customized logic; create new Address Book records, quickly enter Sales & Purchase Orders, verify Item Availability, carry out PO or Voucher Approvals and much more

ATTACHMENT & EMAIL AUTOMATION

Use OrchestratorBot to upload or download attachments; from MS Outlook, have the ability to associate any incoming email directly with the correct contact inside JD Edwards and with Calendar synchronization

WHY ORCHESTRATORBOT.COM ?

- Use OrchestratorBot to drive automation and experience how making your workflows, tasks and business processes easily available to your organization increases productivity
- Search, modify or create records in JD Edwards from the comfort of your collaboration tools including MS Teams, Whatsapp, MS Outlook and Slack
- Extend the logic further with smart AI components and ML fraud detection solutions
